## ACT NOW

Business planning requires long-term vision and the ability to predict and respond to government policies in a timely manner. Every company invests a certain amount of time and resources to assess the impact of government on their operations. Your ability to advocate your concerns to the provincial or federal governments often requires a cost and level of commitment that cannot be undertaken alone. We can help you stay abreast of the current issues effecting business.

Your total revenue, number of employees, number of locations, or your level of advocacy or involvement in the legislative process may guide your level of investment.

- Receipt of all communications including our weekly e-newsletter
- Invitation for your input on issues and an opportunity to influence future legislation and government policy
- Special invitations to all Alberta Chambers of Commerce events, providing opportunities to network with business leaders and key government officials. Including:
  - Alberta Business Awards of Distinction (February)
  - Political Action Day and MLA's Dinner (March)
  - Provincial Conference and Policy Session (May)
  - Fall Board of Directors Meeting and Deputy Ministers' Dinner (November)
- Publish your corporate logo on our interactive website and link to your website
